## 2021 SUMMER AND FALL REGISTRATION

Once again it is time to register for summer camp and the following school year. Please note as stated in the registration letter that all families must re-register. The registration fee is \$75.00 per child. **The \$75.00 covers both summer and fall registration. Once you turn in your registration forms the registration fee will be added to your tuition account.** The forms are due no later than Friday, February 12<sup>th</sup>, in order to reserve a space. Camp calendars from the summer of 2020 are available to view on the parish website ([www.mpbdenver.org](http://www.mpbdenver.org)). At this point in time, I am not sure if we will be able to go out on field trips this summer. ELC tuition will remain the same for the summer, however we will no longer be offering the sibling discount if you are receiving another discount such as funds from The Denver Preschool Program. Only one discount per family. If you have any questions about the registration process, or tuition please give me a call.

## WINTER WEATHER

Please make sure your child is dressed appropriately for winter weather. If the high is going to be below 40 degrees, I would ask that the children do not wear shorts to school.

## UNIVERSITY PARK MOM'S CLUB

University Park Mom's Club (aka UPMC and UPark Moms) was founded over 12 years ago. We are a social, supportive, and educational group for families with young children living in the University Park neighborhood and surrounding area. UPark Mom's provides an excellent opportunity for mothers and their children to make friends, share interests, information and ideas, and get involved in their community. All families with young children and expectant families are welcome. You can check out UPark Mom's Club at <http://universityparkmothersclub.wildapricot.org/join-us>

### LUNCH BOX IDEAS

string cheese – granola bars - sliced fruit – popcorn  
diced cheese and meat – yogurt – crackers –  
carrots/celery sticks

### COVID-19

Please don't forget to fill out the health screening form every morning before school. It makes the drop off process go much quicker.
